

Dmitry Hrustalev

WordPress Developer | Web Developer | Frontend Specialist

Belgrade, Serbia | hrustal8991@gmail.com | LinkedIn profile

SUMMARY

Web developer with 5+ years of experience building and maintaining WordPress websites, landing pages, and marketing sites for international teams, including recent work in the iGaming sector. Skilled in HTML5, CSS3, JavaScript, responsive design, and technical SEO, with hands-on experience across the full delivery cycle: architecture, on-page optimization, UX improvements, and HTML email development. Currently expanding into React, Tailwind CSS, and modern JavaScript tooling (Git, Vite) to grow into full frontend development.

EXPERIENCE

Web Developer | Frontend Specialist

May 2025 – Present

International iGaming Company (NDA) — Remote

- Build and maintain responsive WordPress landing pages and multi-page websites for acquisition and retention campaigns across several GEOs
- Implement interactive UI components and page elements using HTML, CSS, and JavaScript
- Customize WordPress page structures and layouts to support new market launches
- Structure website architecture and implement on-page SEO for new GEO rollouts
- Build responsive HTML email templates for promotional and lifecycle campaigns
- Conduct semantic and keyword research, shaping content structures around search intent
- Produce digital assets and creatives for paid and organic traffic channels
- Work across multilingual websites and content in English, Arabic, and French

Technical Drafter

Nov 2024 – May 2025
